

Liberty Tire Recycling is the premier provider of tire recycling services in North America. By recycling more than 141 million tires annually, Liberty Tire reclaims about 1.59 billion pounds of rubber for innovative, eco-friendly products. The recycled rubber produced by Liberty Tire is used as crumb rubber and industrial feedstock for molded products; as tire-derived fuel for industrial kilns, mills and power plants; and as rubber mulch for landscaping and playgrounds. The company maintains a network of processing plants and comprehensive door-to-door collection services. Liberty Tire Recycling is headquartered in Pittsburgh, PA. For more information, please visit [www.libertytire.com](http://www.libertytire.com).
